GEAR UP FOR THE ULTIMATE RIDE

Read the Side-by-Side vehicle (SSV) and All Terrain Vehicle (ATV) Operator's Guides and watch the Safety DVD before driving. BRP highly recommends that all-terrain vehicle (ATV) drivers take a training course. ATVs can be hazardous to operate. For both ATVs and side-by-side vehicles (SSVs), the operator and passenger should wear a helmet, eye protection and other protective clothing. Respect the minimum age as required by law. For SSVs, fasten lateral net and seat belt at all times and passenger must be at least 12 years old and able to hold handgrips and plant feet while seated against the backrest. Never carry passengers on any ATV not specifically designated for such use. For ATVs, BRP recommends not to carry any passengers under the age of 12. Make sure that all laws, regulations, and BRP's warnings / recommendations for ATV and SSV passengers are respected. Always remember that riding and alcohol/drugs don't mix. Never engage in stunt driving. Avoid excessive speeds and be particularly careful on difficult terrain. Ride responsibly. BRP urges you to "TREAD LIGHTLY" on public and private lands. Preserve your future riding opportunities by showing respect for the environment, local laws and the rights of others when you ride. Always ride responsibly and safely. Never carry passengers on any ATV not specifically designated for such use. Highly skilled operators under controlled conditions appear in this brochure. Do not attempt these manoeuvres if they are beyond your skill level. Pictures taken outward, on private land. BRP reserves the right, at any time, to discontinue or change specifications, prices, designs, features, models or equipment without incurring obligation. Some models depicted herein may include optional equipment or not available in your country. Prices are based on Manufacturer Recommended Retail Prices. SIZING CHART

HOW TO MESURE

For best results, have someone else take measurements. Measure body in underwear. Tape must be snug but not tight. If measurements fall between two sizes, order the larger size.

What code represents your size?

- Find your size.
- The corresponding code is **THE CODE** you use to complete the part number on your order.
Example: 440 227 __ 90
Size: M = code 06
Therefore 440 227 **06** 90

TECHNICAL TERMINOLOGY

WE KEEP YOU DRY

Respirative Performance Matrix or RPM coating exclusive to BRP Riding Gear. Delivers extremely high performance and durability for perfect climate control under even the most extreme conditions. Trademark waterproofness, windproofness and breathability required of BRP Riding Gear shell fabric developed for intensive use and demanding riders.

Same great RPM coating PLUS total seam and logo sealing. Also, added direct venting in strategic jacket areas for more efficient moisture management during intense activity.

TEFLON*

Teflon provides an invisible barrier around fabric fibers to repel water and stains. In addition to retaining its water shedding properties longer than standard Teflon, Teflon HT and HP are also even more resistant to soiling and staining without altering the fabric's color, appearance, structure, texture and breathability. Teflon HT, good up to 20 washes and Teflon HP up to 30 washes compared to manufactured coatings washable only 1 to 5 times.

HIPORA*

Windproof, breathable and waterproof membrane that features unique polyurethane coating technology and delivers excellent moisture management.

DWR*

DWR stands for Durable Water Repellency. This treatment helps prevent the outer fabric surface from absorbing water, keeping the outerwear both light and comfortable.

SEAM SEALING

Seams and embroidery can act as tiny entry points through which wind and water can infiltrate. That's why jackets and pants with RPM are critical seam and logo sealed. And Riding Gear with RPM Max are 100% seam and logo sealed for an even more comprehensive barrier from all the elements. The proprietary tape is also waterproof and breathable to fully seal the deal for complete performance.

WE KEEP YOU WARM

CRESTA BY PRIMALOFT

Primaloft Cresta offers warmth without weight and extra bulk. It is designed to keep you warm and comfortable throughout the day.

PRIMALOFT ONE

Warmer wet or dry than any other synthetic insulation. The ultimate down-like microfiber insulation. Quick drying, soft, and breathable. Primaloft One is lightweight, compressible and thermally efficient.

LINQ PREMIUM 124L TRUNK BOX WITH REAR LIGHT

This extra large innovative Trunk Box carries up to three helmets (124L) and has a key locking latch. It is made of heavy-duty polypropylene and has weather-resistant lid gaskets to seal out dust and moisture. The Trunk box is offered with the new LinQ system meaning it can be installed or removed in a snap, with no tools. The colored panels can also be changed to match the body color of your vehicle.

LINQ FRONT & REAR RACK EXTENSIONS

These strong, durable Extension Racks install easily on the MY12 Outlander thanks to the new LinQ system, requiring no tools. It helps keep your cargo more securely in place.

FRONT & REAR BUMPERS

The front and rear bumpers will provide additional protection against the elements. Tough and durable, they can be added on the base vehicle to give your Outlander the look of an XT model.

MUDGUARDS

It's a must to ride in the mud. Made out of injected plastic parts that perfectly fit your Outlander fenders, they offer more protection from dirt and debris.

UNDERBELLY PROTECTION

Aluminum plates made with high strength 5052 H32 aluminum and plastic deflector to protect your frame from the unexpected - a must-have for rugged terrains.

APACHE 360 TRACK KIT

TRACK SYSTEMS HAVE ENABLE YOU TO **WORK, RIDE AND PLAY** DURING WINTER TIME BY REPLACING WHEELS WITH TRACKS. IN 2009, BRP INTRODUCED THE LARGEST TRACK SYSTEM ON THE MARKET FOR MAXIMUM RELIABILITY AND FLOTATION. **THIS YEAR, THE DEVELOPMENT TEAM BROUGHT THE IDEA EVEN FURTHER BY DESIGNING THE BEST YEAR-ROUND KIT ON THE MARKET.**

/ The new Apache 360 Track Kit offers the biggest contact patch, highest ground clearance and lowest steering effort.

/ With its heightened rubber over mold wheels, friction and vibration are reduced to a minimum.

/ A new track design provides ultimate traction in any terrain.

/ The conversion from tires to tracks can be made in less than 20 minutes using the Apache 360 Mounting Kit. There is no excuse not to get out and ride.

/ The DPS Module, when installed with the Apache 360 system optimizes your Dynamic Power Steering (DPS) performance, maximizing steering agility at lower speeds while providing

firmer steering at cruising speeds. In addition, it provides a speed correction factor for the speedometer so that your speedometer indicates the proper speed when running with your tracks installed.

APACHE 360 TRACK KIT

Best year-round kit on the market, even better than the leading Apache WT. Biggest contact patch, highest ground clearance and lowest steering effort. Quick conversion from tires to tracks in less than 20 minutes for the fastest switch. Reduced friction and vibration with heightened rubber over mold wheels. New track design and rubber for more traction in snow or any other type of ground surface.

PLOWS / or - Alpine Flex Plow - Alpine Super Duty Straight or One Way State Plow

ALPINE FLEX PLOW 60"
New innovative market trend leader. New plow blade made of flexible UHMW, the highest impact strength of any thermoplastic presently made. Enormous flex action protects the driver, unit and object accidentally impacted. Impact absorption properties return plow to its original shape. Rearward release action practically eliminates jolts from being transferred to the driver or unit. Attaches and detaches effortlessly thanks to the fastest and easiest push frame mounting system on the market. Groundbreaking reinvented blade turning mechanism mounted as high as possible to eliminate having to bend down to change or adjust blade's angle. High pivot point keeps plow on pavement. Compatible with all Alpine Flex Plow accessories to further enhance plow versatility.

Outlander 2006-2012 and Renegade 2007-2009 and 2012 | 715001181 |

ALPINE SUPER DUTY STRAIGHT PLOW
Super duty plow blades made from 12-gauge steel. Replaceable wear blades. When angled, 60" (1.5 m) blade clears 53 1/2" (1.36 m) path, 54" (1.37 m) blade clears 48" (1.23 m) path. Blades swivel left or right, 5 positions. Large pin designed for easy blade rotation to eliminate dirt and snow buildup at pivot point. Blade design provides best snow/dirt roll-off at any angle. Yellow-colored version Can-Am branded.

XPS STORAGE OIL

This specialty oil is a must when putting your Can-Am off-road vehicle away for extended periods. Specially formulated to protect the engine's internal parts from the hazards of rust and corrosion due to condensation during storage or prolonged periods of non-use. 350 g.

413711900 |

PRE-MIXED ANTIFREEZE/ COOLANT

Pre-mixed ready to top up your coolant level. Blended to perform best in our Rotax engines with anti-corrosive additive.

XPS SYNTHETIC GEAR OIL

Brings forward the latest innovations of lubricant technology. Provides optimal protection under severe conditions while allowing durability that far exceeds other synthetic and conventional API GL-5 gear oils. Offers added assurance during extended drain intervals. Allows higher load capacity when compared to petroleum lubricants. Its tremendous thermal stability and relatively constant viscosity give exceptional wear protection and superior performance at extreme temperatures. Strongly recommended for use in all Can-Am side-by-sides and ATV models requiring API GL-5 gear oil.

ENGINEERED FOR YOUR ROTAX® ENGINE

- / They've passed the most grueling tests.
- / BRP invested millions of dollars for XPS lubricants to be specifically formulated for your 2 and 4 stroke ROTAX engines.
- / They've been challenged by thousands of hours on the dyno and millions of miles in real world riding conditions.
- / Don't entrust the performance and protection of the best 2 and 4 stroke engines in powersports to anything but the lubricants engineered exactly for them.

TOP 10 REASONS WHY YOUR ROTAX ENGINE DESERVES XPS

- 1 All Climate synthetic base oils for Easy Starting
- 2 Additional corrosion Protection for wet environments and periods of extended non-use
- 3 Friction modifiers designed for optimal clutch performance
- 4 Unique chemistry for Maximum anti-wear protection
- 5 Application specific chemistries that automotive oils do not provide
- 6 Extra Engine Protection for heavy loads and high RPMs
- 7 Smart computer oiling system controlled in interaction with the rider's style
- 8 Extensive field testing on Can-Am off-road vehicles
- 9 Years of extensive R&D and rigorous testing with industry leading ROTAX engines
- 10 The perfect match: ultimate performance and durable longevity
