

AIR FILTERS

- Top factory teams and riders around the world choose Twin Air dual-stage air filters
- Dual-bonded foam design filters out even the smallest dirt particles, while allowing more airflow than two separate layer filters (flow bench proven)
- Flat foam sealing ring securely seats against the airbox, even in the worst riding conditions
- Twin Air filters are slightly smaller than stock to make them easier to change and to increase dead air space around the filter for better performance

FILTER SYSTEM

FOR CAN-AM

- Twin Air has developed a replacement filter system for Can-Am
- Kit eliminates the stock plastic filter housing
- With intake tube attached to the inlet on the airbox, the filter will then clamp to the oval portion of the intake tube
- Design allows for easier filter care, increased airflow due to the cylindrical shaped intake, and less expense in replacement filters

TWIN AIR BIODEGRADABLE FILTER CARE PRODUCTS

- Keep your foam filter in like-new condition
- BIO Liquid Power filter oil was developed and produced by Texaco exclusively for Twin Air; exceeds the strictest standards on biodegradability by 16%; starts thin for deep, even penetration and dries to an even-coating, high-tack shield that traps dirt, dust and grit
- BIO Dirt Remover cleans Liquid Bio Power oil by using granular detergents instead of solvents; water-soluble cleaner can go right down the drain without clogging the drain or harming the environment; will not harden or damage filter foam
- Recommended for all foam filters
- Kit contains one BIO Dirt Remover and one liter liquid BIO Power Filter oil
- BIO Dirt Remover in 1 liter bottle, BIO Liquid Power filter oil in 1 liter can or 500ml spray can
