

MUD-PROOF SOLID REAR DISC ROTORS

- Used by professional off-road racing teams around the world
- Made from high-carbon-content stainless steel, which offers greater friction than standard discs
- No-holes design greatly prolongs brake pad life in muddy conditions
- Cut with a CAD/CAM laser machine, not stamped like stockers
- Perfect for muddy conditions, off-road or on the track

REPLACEMENT ROTORS

- Manufactured from 420 high-carbon stainless steel
- Engineered to offer greater strength and durability than OEM
- Offers greater friction and longer life than OEM at an affordable price
- CAD/CAM laser-cut and finish-ground for a distortion-free flat profile
- Quality replacement for worn/warped stock rotors or when superior braking is demanded at an affordable price
- Endorsed by top off-road riders
- Made in the U.S.A.
